

GPX MOBILE

INSTALLATION GUIDE

1 Attach Roll Bar Mount to Roll Bar

- Attach the roll bar mount close to your camera source (data logger, included lipstick camera, etc).
- Avoid mounting near the driver or high-traffic areas in the car.

2 Attach the Clip to Device

- Once attached, slide the clip into the roll bar mount.
- When properly secured, you should hear a click.
- Lock the clip in place by pressing down on the rubber flap.
- Finally, tighten the thumbscrews to secure the mount.

3 Connect GPX Mobile to Camera source

- Lipstick camera: plug the USB-C cable into lower USB port. Then, mount the lipstick camera using the provided roll bar mount and extension rod.
- Data loggers: plug the HDMI cable from your data logger into the HDMI port on the device.
