

## Google Meet Backgrounds

We have some new, fun Zinkerz Google Meet backgrounds that we'd love for you to use for your classes that you conduct in the Backup Call!

Select one of the Zinkerz Options below!

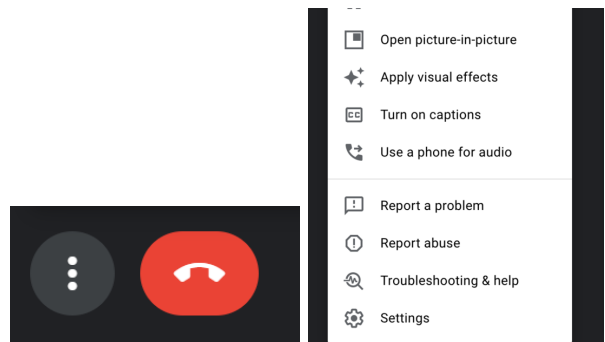

You will need to save the image to your computer before you will be able to upload it in Meet.

### 1. Finding the Background Setting

Join a Google Meet and click the button with the 3 vertical circles near the red "End Call" button.

A menu will open. Select the "Apply Visual Effects" option.

### 2. Applying the Background

In the Visual Effects section, select the "Upload a background image" option and select the saved Zinkerz image you want to upload from your files.
