Update to Delivery Charges – Fuel Surcharge

Dear Valued Customer,

We hope you are doing well.

At Morin Supply, we remain committed to providing reliable delivery service and the level of support our customers have come to expect. In order to help offset the continued impact of rising fuel costs on our transportation operations, we will be implementing a **\$25.00 fuel surcharge per delivery**, in addition to our current **\$75.00 standard delivery fee**.

Effective **April 6, 2026**, this **\$25.00 fuel surcharge** will apply to **Morin Supply deliveries** and will appear as a separate line item on invoices and related documents.

Please note that this surcharge applies only to Morin Supply's delivery charges. Any freight, fuel, or transportation-related surcharge implemented by a supplier or vendor may be applied separately where applicable.

Please also note that this fuel surcharge may be modified, revised, or removed at any time, without notice, based on market conditions and transportation costs.

This adjustment has not been made lightly. It is a necessary step to help us manage ongoing cost pressures while continuing to provide dependable service to our customers.

We appreciate your understanding and your continued business. Should you have any questions, please contact your Morin Supply representative.

Sincerely,

Yanik Morin
President
