Tariff Surcharge update

Dear Valued Customer,

We would like to inform you that, although recent government-imposed tariffs have affected global supply chains, we are pleased to confirm that **no tariff surcharges** will be applied to your orders at this time.

While global market conditions remain fluid—with ongoing changes related to tariffs, freight costs, and raw material pricing—we remain committed to minimizing the impact on your business. In the event future tariffs are introduced, we will review and adjust our surcharge policy as necessary.

Should you have any questions or concerns, please feel free to contact your local sales representative, regional manager, or our inside sales team.

We sincerely appreciate your continued partnership and trust as we navigate these evolving circumstances together.

Nick Weller

VP, Diversified Products
